

South West Academy of Sport AFL program member Scott Jones (15) goes through some drills at a football clinic with Rob Wiley.

State coaches visit youngsters

FOOTBALL

THE South West Academy of Sport AFL squad was treated to a training session from WA Football Commission coaches Robert Wiley and Craig Starceвич at Stewart Bovell oval on Monday night.

South West talent and coaching coordinator Jamie Douse said it was a fantastic opportunity for the boys to have exposure to that level of coaching for the development of their game.

“They focused on skills you would use in a game at a higher level than they would experience in the country leagues and they were exposed to training drills used at a State academy level,” he said.

“I know from speaking to the boys they all appreciated it and got a lot out of it.”

Douse said presentations after the session by the guest coaches were also well received with over 30 coaches from the South West region attending.
