

Talented teams meet

SOUTH West Academy of Sport basketball players received their first taste of international competition when they took on visiting Indonesian teams at the Eaton Recreation Centre recently.

The local court talents donned the green and gold and were victorious in their games against the Indonesian under-18 women's and men's teams on Wednesday October 21.

The visitors were representing the school-based DetEksi Basketball League, Indonesia's largest basketball competition.

SWAS basketball head coach Steve Hawkins praised the event.

"To play an international team is something that all players dream about and to do it in the South West region is even more prestigious for them."

SWAS basketball players participated in an opening ceremony before the games against the visiting Indonesian teams.
