

# Soccer players brave the cold for fact-finding mission in England

NINE young South West soccer players are flying to England tomorrow to get a taste of the game where it is idolised.

"I'm looking forward to watching the game and being able to verse the quality of the teams there," Daniel Kearney said.

Bryce Melville-Adams was keen to see his brother, sister-in-law and niece who live in the UK while Sebastian Bell said he was looking forward to the shops and the experience.

The players were looking forward to watching Manchester United play Arsenal live, and play-

ing the Leeds United U16 team themselves.

With average temperatures around five degrees in England, the jackets and beanies made with sponsorship from Busselton Shire Council will no doubt be greatly appreciated.

The excited 15-year-olds are Ryan Fish, Eric Dean, Luke Monks, Daniel Kearney, Bryce Melville-Adams, Carlo Chieffini, Steven Byrne, Daniel Marshall and Sebastian Bell with their coach Ferry Krakowczyk.

Anxious and jealous parents will wave their sons off tomorrow as most of them head overseas for the first time.
